

WHAT IS AIRCRAFT MARKET

The website, which is developing at an encouraging pace, is designed to facilitate a significant gap in the market for aviation related advertising. Essentially the website will take on the form as an online classified source for all things related to the aviation industry from flight schools through to the sale of aircraft, parts and equipment. The website will be advertised through various advertising channels incl. digital (search engine, display, publisher websites & industry news) as well as offline aviation publications in order to target an audience for which the website was conceived, businesses like yours and enthusiasts like myself. This visibility will provide 'suppliers' with an additional opportunity for revenue growth and brand awareness.

OUR OBJECTIVES

Our vision is enriching Africa's aviation industry. Aircraft Market is a portal for merging the gap between buyers and sellers alike.

“selling my aircraft, made easy!”
